EXPERIENCE

Internship/Training Cybersecurity And Blockchain
Birla Institute Of Technology, Mesra *06/2023 - 07/2023*

- Penetration Testing - This involved using tools like Metasploit and Nmap to access the security posture of systems and recommend countermeasures.

- Blockchain Technology - the opportunity to explore the fundamentals of blockchain technology, including its decentralized nature, cryptographic principles, and consensus mechanisms.

- The internship provided me with a foundation in cybersecurity principles, including threat detection, risk assessment, and strategies.
